

SESSION-5

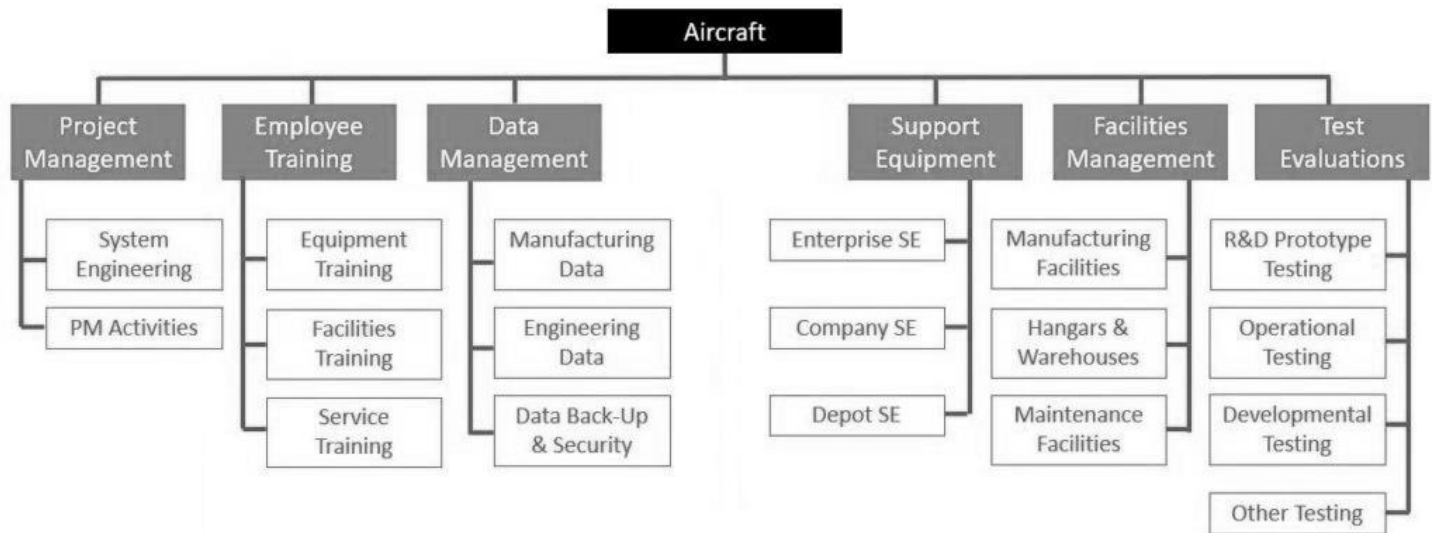

F.Y.A

TEAM MEMBERS:

G. AVINASHH
ANIKET MISHRA
PRACHI PANDIT

Work Breakdown Structure (WBS):

SWOT ANALYSIS:

STRENGTHS:

- Project is customer specific- Customer satisfaction is our number one priority. We have designed the website in a user-friendly way.
- Security- We apprehend privacy of our users. Details of our users stay secure in our website.
- Compatibility- Our website is compatible across all kinds of devices and platforms.

WEAKNESS:

- Scalability- It can't be scaled since its scenario based.
- Data- Obtaining accurate datasets will be a task of concern.

OPPORTUNITIES:

- It can be easily improvised in Development phase due to its compatibility.
- Many prototypes can be acquired, in Development phase, by the stakeholders.

THREATS:

- May take time to get adapted.
- Security issues of securing it from hackers and securing confidential data.
- Server might not be responsive at times.
